WORK EXPERIENCE

Moody's Corporation

Feb. 2026 – Present

Senior Data Specialist

- Drive programmatic, scaled data quality remediation across global entity databases, designing deduplication, pipelines, and anomaly detection solutions using SQL and PySpark on Databricks.
- Frame data quality problems into clear problem statements and remediation strategies, coordinating across engineering and stakeholders to shift from reactive fixes to proactive detection and correction.
- Leverage AWS (S3, Lambda, EC2) to orchestrate automated data workflows.

Haleon

Aug. 2025 – Jan. 2026

Planning & Forecasting Intern

- Preparation and analysis of profit & loss, headcount and forecasting reports to support performance reviews for the Canada market, using SAP and Bison ensure accuracy for reporting and decision-making.

Philip Morris International

Jun. 2024 – Jul. 2025

Data Analysis Intern – INKOMPASS

- Lead the reduction of LOGD (loss of goods destroyed) project, using data analysis to pinpoint inefficiencies and minimize financial losses.
- Optimization with Power Query, Python and SQL to perform inventory and drainage assessments to guide high-impact operational decisions.
 - **Key Results:** Reduced LOGD by 84.4% through targeted corrective actions informed by root cause analysis. Enhanced inventory accuracy by over 47%, significantly minimizing waste and discrepancies.

TD Synnex (Shyft Global Services)

Jan. 2023 – May. 2023

Technical Support

- Diagnosed and resolved hardware failures in servers and critical components by collaborating with engineers for rapid incident resolution.

EDUCATION

B.S. Industrial Engineering

2023 - 2025

Universidad Fidélitas

San José

B.S. Computer Engineering

2023 - Paused

Instituto Tecnológico de Costa Rica

Cartago

TECHNICAL SKILLS, LANGUAGES & INTERESTS

- **Skills:** GNU/Linux, Bash, Python, SQL, AWS, Power Query, Power BI.
- **Languages:** English (C2 - Fluent), Portuguese (B2 - Intermediate), Spanish (Native)
- **Interests:** Salsa music, motor-sports, and martial arts.
